Department of Training Support

Branches and Key Personnel

Department of Training Support

The Department of Training Support (DTS) systematically assesses the requirement for and develops AMEDD instructional products, unit training strategies, training materials, and devices to train and sustain army medical readiness for peace and war.

New Organization Training Branch

Develop, revise, and implement Training Support Packages (TSP) and training strategies for all medical units that are converting/activating to a new organizational structure. Conduct on-site doctrine, tactics, mission, organization, and capabilities training for Echelon Above Brigade (EAB) Combat Health Support forces undergoing Modular Medical Force (MMF) design to include Active Army, Army National Guard, and Army Reserve.

New Organizational Training Branch

- **Develop, revise, and implement Training Support Packages (TSP)**
- **Coordinate and conduct on-site new organization training to converting or activating units (all COMPOs)**
- **Provide leaders/soldiers with information necessary to fully exploit the new capabilities of their unit**
- **Conduct follow-ups to ensure the modernized unit can perform its assigned mission**

New Organizational Training Branch

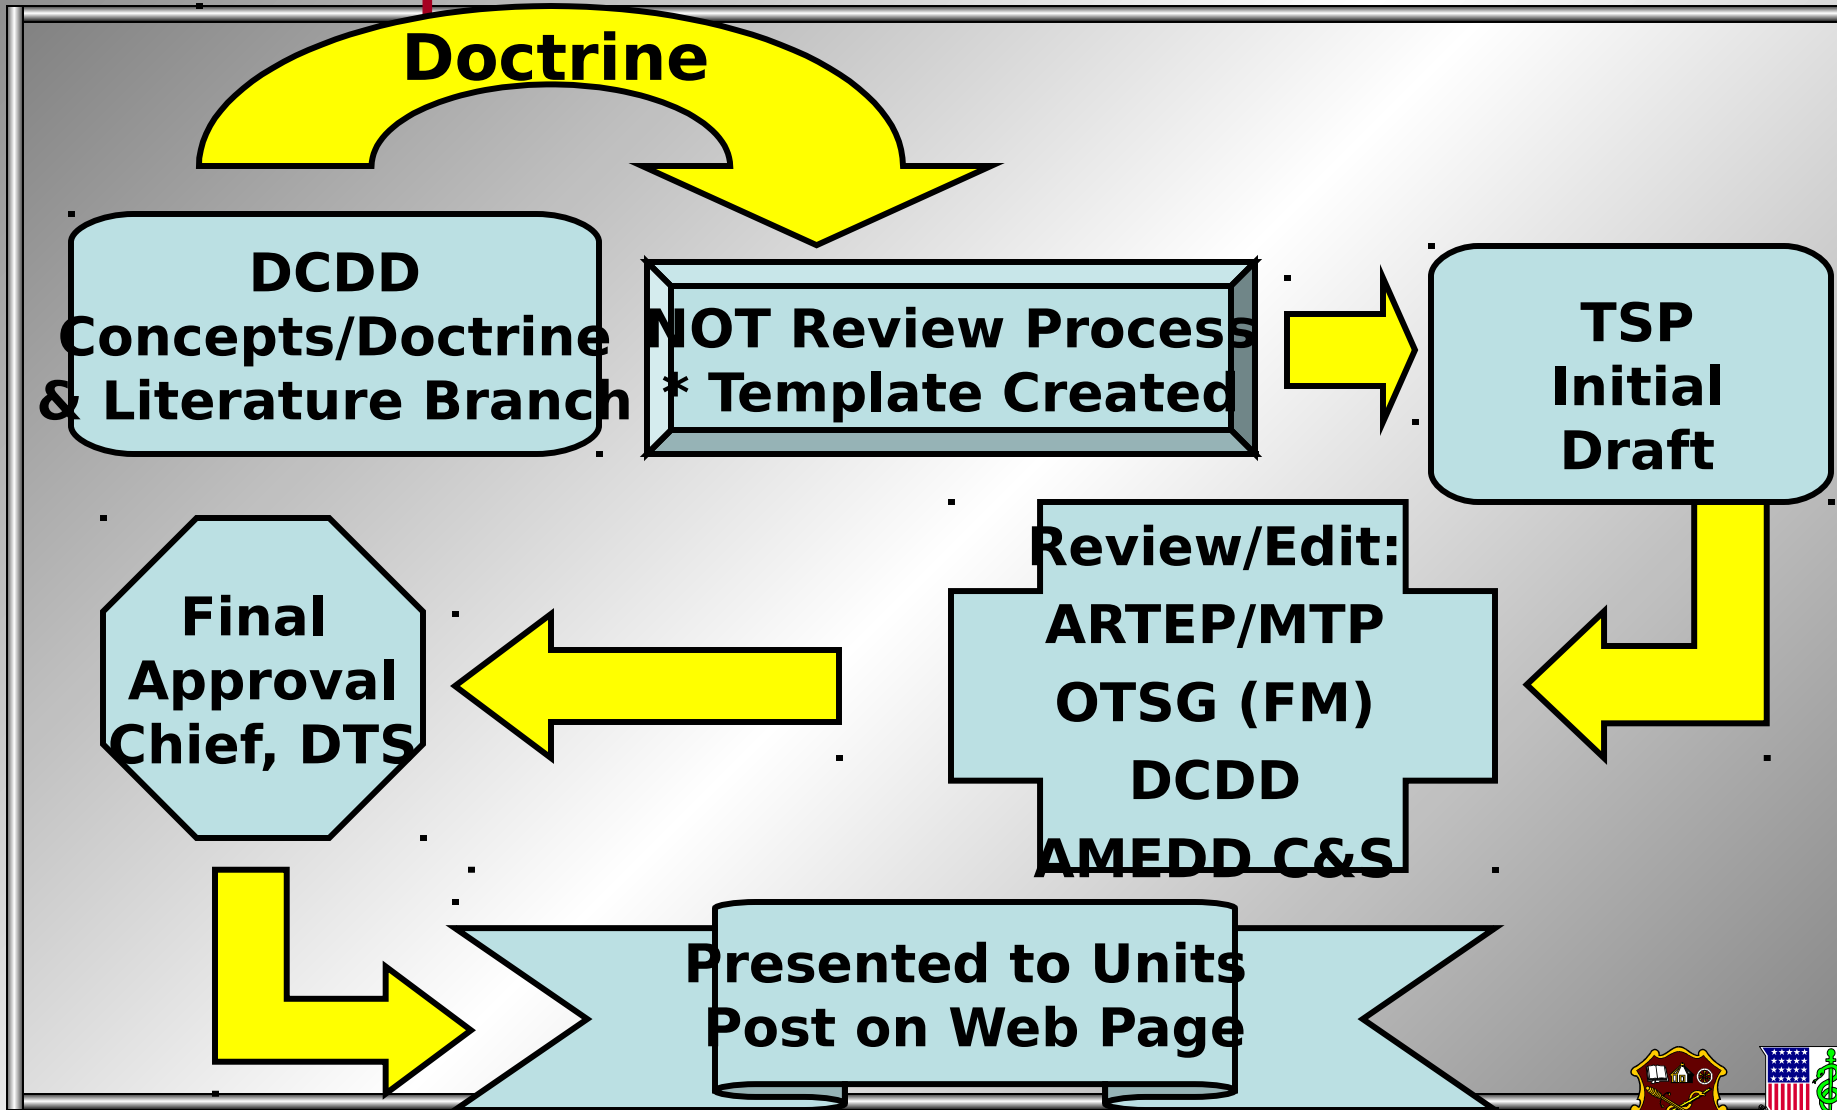

Functions Continued

- ✦ **Maintain liaison/coordination with OTSG (Force Management), FORSCOM, USARC, NGB, RTS MED, and USAMMA**
- ✦ **Coordinate with Combat & Doctrine Developers for operational concepts for NOT**
- ✦ **Participate in AMEDD Board's Concept Experimentation Program (CEP)**
- ✦ **Serve as Subject Matter Experts (SME) for other AMEDDC&S departments**
- ✦ **Market NOT Branch**

Training Support Package Development Process

Training Support Package Contents

HEADQUARTERS, DEPARTMENT OF THE ARMY
